 Code: SE810 SE811 SE812
 Version/Date: v2 08/19

Min/Max Adjustment 77-78.5

Min/Max Adjustment 87-88.5

Min/Max Adjustment 97-98.5

It is important to remember that water will find it's way naturally. This is a physical law that we cannot change. A frameless shower cubicle has a minimalistic design, and this means that the small profile/threshold trim, unlike a conventional framed shower cubicle, may allow a small amount of water to splash out. Under normal showering conditions this should not be a concern as the water will usually hit the person showering and reduce the power of the spray hitting the base of the cubicle. Unfortunately if a jet of water is sprayed directly at the frameless area then water may escape. This does not render the item faulty, but is a characteristic of this nature of product.

Phoenix provide, as standard, a surface protection for all our shower enclosures clearly marked with the logo called Phoenix Easy-Clean. This is an invisible coating applied during the manufacturing process that helps ensure your shower maintains a 'new' look for as long as possible, by providing a barrier against the surface deposits that can dull the surface of your shower door.

Information: Easy clean glass, 10 year guarantee.
 Height: 195cm

Guarantee/Aftercare: During installation extra care must be taken to avoid damaging the fittings. We provide a guarantee against faulty manufacture or materials (excluding serviceable parts), providing they have been installed, cared for and used in accordance with our instructions and good plumbing practice.

Finishes:

Glass
