## Bathroom Furniture Maintenance Guide

### GENERAL INFORMATION FOR ALL SURFACES:

Phoenix bathroom furniture is manufactured from materials that are well suited for bathrooms. It is, however, important to ensure good ventilation and to place the furniture at a distance from your bath or shower to avoid splashes of water and soap residue. Wipe furniture dry if splashed with water. This will minimise the risk of damage.

### CLEANING INSTRUCTIONS:

1. We recommend cleaning with a soft damp cloth and a mild all-purpose cleaning agent. (Spray the cleaning agent on to a damp cloth and wipe the surface. Never spray directly onto the furniture.)
2. We advise against vigorous rubbing as this may cause stains and damage.
4. Wipe with a damp cloth wrung in clean water to remove the cleaning agent and to avoid stains and stripes.
5. Avoid using dry cloths and paper tissue for furniture with matt and high-gloss surfaces, as these may scratch the surface.
6. Do not use abrasive cleaning agents or cleaning agents that contain ammonia, bleach or other strong solvents as these will damage the furniture. We also advise against the use of furniture polish, acetone, ethanol, benzine and coarse cleaning sponges.
